This is a presentation performed in five stages. The cast will use movement, mime and rhythm to show ideas that come from playing, improvising and talking together - gathering, healing, the country, talking, dreaming. There is no script for this entry.

“Gathering, Healing, The Country, Talking, Dreaming”

We perform five images. We use movement, mime and rhythm to show ideas that come from playing, improvising and talking together .

We mime words and phrases that come from our improvisation work in school; “This is a nice community”, “friends” “mom”, “elders”, “dreaming”, “caribou”, “wolf”, “good and bad”

Image one - We are Innu, we are young,
We are gathered together to represent our traditional people,
We have an identity, we are talking, we are a community.

Image two - We are a healing people
We represent the “Sweat” and healing.

Image three - We are a nomadic people
We walk, we look and we hunt,
We love, we look after each other.

Image four - There is good and bad,
We struggle, sometimes we are alone.

Image five - People help each other, we are a family,
People look after each other, we are a community.
