Presents

Stranded

Cast:

Captain	Candace Toma
Co Pilot	Paul Rich
Mother	Leanne
Child 1	Chloe Wells
Child 2	Tammy Poker
Doctor	Skye Poker
Passenger	Charlene Andrew

Set in the early 90's when pilots came to Goose Bay to practice their low level flying over the country. A plane crashes on the way to Boarder Beacon. The passengers are forced to work together in order to survive.

Scene 1

(The stage is dark . When the lights turn on all characters have already boarded the plane and are sitting in their seats for take off.)

Captain: This is your captain speaking. Welcome aboard flight 252 on route to Border Beacon. Please stay seated and wear your seatbelt at all times. We should be there in about 30 minutes.

(The captain and co-pilot prepare for take off)

Captain: *(after flying for some time)* Oh no, co pilot, look at all this fog. It looks dangerous.

(All scream)

(Rerecording of "Not Afraid" plays and all the lights go out and the recording of a plane crashing plays)

Scene 2

(The lights turn back on and all passengers are laying on the ground all covered in dirt and rouble.)

Captain: Oh my God, is everyone ok? Oh no my tooth.

Children 1&2 : *(Crying)* Nika, Nika.

Doctor: *(After checking herself out she runs to help other passengers)* It's ok, I am a doctor. Does anyone need help?

(All passengers look around to see if anything survived the crash. They discover they have no clothes, food, or anyway to get home.)

Child 1: Nika, where is my bear?

Mother: *(looks for their suitcases)* All of our clothes are gone.

Doctor: We have no food.

Passenger: We are stranded.

Captain: I am going to get fired!

Co Pilot: Ok we need to work together so we can survive out here. You (*points to mother and her kids*) go gather berries. You (*points to doctor*) go get wood. You (*points to passenger*) go get water. You (*points to captain*) go get fish. And I will go get us some caribou.

(The lights turn off)

Scene 3

Passenger: We need to build a shelter.

Child 2 : I will go get some boughs.

(All of them work together to build themselves a big Innu tent.)

Doctor: Now that we have shelter . Let's eat and celebrate our survival.

(All gather around a fire , eating together. All sing to a recorded version of " We are Family")

Mother: Bedtime my little children.

All: We should all get some sleep. It has been quite the day!

(They all lay down and go to bed the lights go out)

Scene 4

(Everyone is sound asleep. A recording of a very loud plane flies over head)

Child 2 : (*Jumps up and runs outside*) Nika , Nika a plane a plane . (*running back inside*)

Mother: Go back to bed. You are dreaming my child.

(All of a sudden another very loud plane flies over head waking everyone up)

Co pilot: I think this is the low level flying that I heard about on the news. Goose Bay has countries all over the world come to practice their flying very low to the ground.

Doctor: If they fly so low, they will scare all of our caribou away and we won't have any food.

Child 1: Hey what if we write HELP US in the sand really big ? Maybe, just maybe, the pilots of those planes will see it and rescue us.

(All work together to spell out the words HELP US)

Passenger: I think they saw us!!!

Mother : They did! They're turning around.

Children 1 & 2: Hurray we're saved!!!!!!

Everyone cheers. The lights fade to black
